魔王的秘密!

魔王のナイショ!

The Princess Of Darkness

Palace of the Demon King

Our council of elders feel that we should not attract too much attention from the humans so we should send out some peaceful supression troops forward. What do you think of this plan your majesty?

The recent skirmish at our borders are not from any organisations. They are from the neighbouring human countries

The god like, absolute, untouchable demon king!

神聖不可侵犯的絕對統治者

The demon king.

Hm.

Everyone has been working hard on this case That shall be it for this meeting today.

Yes, your majesty.

This is a good plan, lets proceed with it.

It has been tough on you
Your majesty
Damn it! It's hot inside!
You have to be commanding towards your underlings
Recently there are quite some suspicious gatherings nightly
I know!
Your majesty! As the demon king, you mustn't act like this!
That is another matter
Yes, yes, yes, Asia. If you force me wear that gain, I'll really faint

www.gaseamoon.net

I can only wear that thick armor for everyone to look up at me.
Ah?
If everyone had known that the demon king is a little girl like me they won't serve me anymore
And, no matter what happens, Aslia will protect me!
Right?
For your majesty. I am willing to risk my life.
But,
To display such a childish side in front of your servants...
It is not suiting for a demon king at all!

This I can under stand
But!
It was just to make me aware of my role as a king
Aslia had drawn the line between master and servant,
Damn it!
Can't I just a bit cute, a bit willful!
Can't you just be gentler with me! I am the demon king after all!
What should I do now?
Perhaps I am putting too much distance between us
Ha,

Your majesty!
Please hang on, your majesty!
We finally managed to secure peace for our people!!
The previous demon king...
As a...
The blood
My blood in your body...
Why else do you think I had given up being a human and become your majesty's servant!
Are you planning to give up on us halfway!

Asila
This girl, calling out my name... Other than that, she doesn't remember anything at all. To let her remember everything, I'm afraid...
*smack
As... lia...

Is there anything wrong?
Your majesty ?
Seems like she is still angry
Ah?
I guess so...
Shall I help to comb your hair?
.....
We haven't don_ this in a long time.
I had always been the one combing your hair in the past
Your majesty ,
Hm...

The various meetings today must have been tiring.
Your majesty ?
There I'm done
Hm?
Aslia ...
Aslia...
I should take my leave now
!
I guess... I should be staying here.

*Ah, really!
哼——真是的！
My! Your eyes are sure useful! Can I borrow them?
Well, I can see past that thunk armor, so it's alright for me
She should just abandon that metal casing! She has such a moe moe body!
Why does she have to wear that armor!
Tell me more! How much can you see?
Those two are getting along really well right now
The reign of the demon king seems suprisingly secure.
In the meantime, there is a meeting elsewhere.
What's up with the Demon King!
This is just too much!
